

Preserver for Environmental Consultants

Site assessment records, GPS-tagged species observations
and environmental compliance documentation in the field.

Why Environmental Consultants Need Preserver

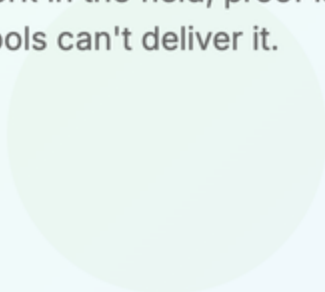

Proof of when and where matters in every industry.
Environmental Consultants professionals need irrefutable
records — automatic timestamps and GPS on every capture.

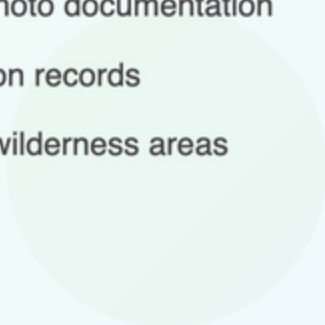

The Problem

Documentation depends on connectivity. No signal means no record. No timestamp means no credibility. For environmental consultants work in the field, proof is everything — and most tools can't deliver it.

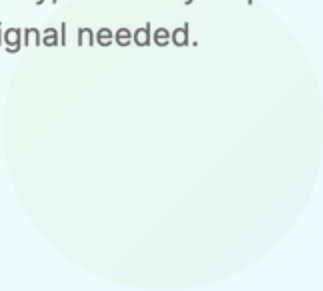

How Preserver Helps

- ✓ GPS-tagged site assessment records
 - ✓ Species observation logs with timestamps and coordinates
 - ✓ Environmental compliance photo documentation
 - ✓ Water and soil sample location records
 - ✓ Works offline in remote and wilderness areas
- 

The Insight

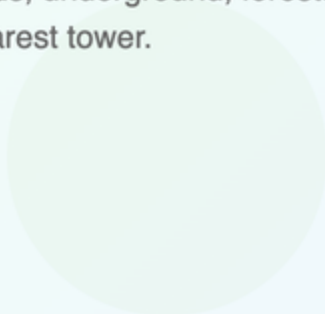

Every environmental consultants professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking. No signal needed.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — remote fields, underground, forests, or miles from the nearest tower.

Free to Capture

No subscription. No hidden fees. No data sold. AI exports free during beta — early users keep them free forever.
