

Preserver for Gardeners

Planting records and GPS-tagged observations across
large properties.

Why Gardeners Need Preserver

GPS-tagged garden observations and planting records across large properties.... Time, date and GPS on every capture — no signal needed.

The Problem

Most documentation depends on connectivity. No signal? No record. No timestamp? No credibility. gardeners professionals need proof — not promises.

How Preserver Helps

- ✓ Planting records with GPS and timestamps
- ✓ Growth progress photos over time
- ✓ GPS-tagged garden observations
- ✓ Works offline across large properties
- ✓ Seasonal and condition records

The Insight

Every professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

Free to Capture

No subscription. No hidden fees. No data sold. AI exports free during beta — early users keep them free forever.
