

Incident Response Report

Client: Demo data - privacy protected · Emergency response callout

Visit Date: 28 September 2026, 6:20 AM – 7:15 AM

Generated by: AI report assistant, from a Preserver field export

Summary

An emergency response callout was carried out on-site, covering a first aid kit and supplies check, a communications equipment check, and a response equipment sign-off. All observations were captured on-site using the Preserver app, with GPS location and timestamp data recorded automatically alongside supporting photos and voice notes converted to text.

First aid kit supplies were checked and confirmed fully stocked, communications equipment was tested and confirmed operational, and response equipment was signed off as fully charged and ready at callout start.

Response Summary

Category	Observation	Status	Action Required
First Aid Supplies	Fully stocked, checked against kit list	Complete	None
Communications	Radio equipment tested, operational	Complete	None
Response Equipment	Fully charged and ready at callout start	Complete	None

Field Evidence

The following images and captions were captured directly through the Preserver app during the visit. Each entry retains its original GPS coordinates and capture timestamp. Demo data - privacy protected.

First aid kit — supplies check

-27.4689, 153.0234 · 28 Sep 2026, 6:25 AM

First aid kit supplies checked, confirmed fully stocked at callout start.

Communications — radio equipment check

-27.4691, 153.0236 · 28 Sep 2026, 6:42 AM

Communications radio equipment tested, confirmed operational.

Response equipment — sign-off

-27.4691, 153.0236 · 28 Sep 2026, 7:02 AM

Response equipment checked and signed off, fully charged and ready.

Voice & Text Observations

Observations below were recorded on-site as voice notes and automatically transcribed, or entered directly as text, through the Preserver app.

Time	Type	Transcript / Note
6:25 AM	Voice	"First aid kit's fully stocked, checked it off against the kit list, nothing missing."
6:42 AM	Voice	"Radio's tested and coming through clear, comms are good to go."
7:02 AM	Text	Response equipment checked and signed off, fully charged and ready.

Site Visit Log

6:20 AM	Activity started on-site — GPS lock confirmed, callout location
6:25 AM	First aid supplies check — photo + voice observation logged
6:42 AM	Communications equipment check — photo + voice observation logged
7:02 AM	Response equipment sign-off — photo + text observation logged
7:15 AM	Activity ended and locked — record sealed, tamper-evident

How This Report Was Produced

This report was generated from a single Preserver export — no re-typing, no separate note-taking app, and no manual GPS lookups. During the visit, every photo, voice note and text entry was captured in one place, each automatically stamped with the time and exact location it was recorded.

At the end of the visit, the activity was locked directly in the app, sealing the record so nothing could be altered after the fact. The full activity — photos, transcripts, GPS log and metadata — was then exported in one step (JSON + Photos) and handed to an AI assistant, which produced the structured report above in a matter of minutes.

The result: a defensible, timestamped, location-verified record of the callout, turned into a supervisor-ready report the same shift it was captured.

Preserver

Free to capture. Record your observations — photo, video, voice or text — with GPS and timestamp on every entry. Export anywhere, including straight to AI. preserver.me
