

# **Preserver for Chiropractors**

Session notes, treatment observations and patient progress records.

# **Why Chiropractors Need Preserver**

Clinical session notes need to be accurate, private and easily retrievable. Preserver provides a private voice and text ... Time, date and GPS on every capture — no signal needed.

# The Problem

Most documentation depends on connectivity. No signal? No record. No timestamp? No credibility. Chiropractors professionals need proof — not promises.

## How Preserver Helps

- ✓ Session notes and treatment observations
- ✓ Patient progress records over multiple visits
- ✓ Voice notes during consultations
- ✓ Referral and correspondence records
- ✓ Private — data stays on device

# The Insight

Every chiropractors professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

# Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

# **Free** to Capture

No subscription. No hidden fees. No data sold. AI exports free during beta — early users keep them free forever.

## Get Preserver

For Chiropractors

**Free to Capture**
