

# Process Review Report

Client: Demo data - privacy protected · Operations process review  
Visit Date: 28 September 2026, 9:30 AM – 10:40 AM  
Generated by: AI report assistant, from a Preserver field export

## Summary

A process review was carried out on-site, covering a performance dashboard and metrics check, a process-mapping workshop review, and a stakeholder report walkthrough. All observations were captured on-site using the Preserver app, with GPS location and timestamp data recorded automatically alongside supporting photos and voice notes converted to text.

Performance metrics were reviewed against target and trending in the right direction, the process-mapping workshop notes were consolidated onto the board with clear next steps, and the stakeholder report was reviewed and confirmed ready for presentation.

## Review Summary

| Category            | Observation                                   | Status   | Action Required            |
|---------------------|-----------------------------------------------|----------|----------------------------|
| Performance Metrics | Trending in the right direction, on target    | On Track | None                       |
| Process Mapping     | Workshop notes consolidated, next steps clear | Complete | Schedule follow-up session |
| Stakeholder Report  | Reviewed, ready for presentation              | Complete | None                       |

## Field Evidence

The following images and captions were captured directly through the Preserver app during the visit. Each entry retains its original GPS coordinates and capture timestamp. Demo data - privacy protected.

### ***Performance dashboard — metrics check***

-27.4701, 153.0243 · 28 Sep 2026, 9:38 AM

Performance dashboard reviewed, metrics trending in the right direction against target.

### ***Process mapping — workshop board***

-27.4701, 153.0243 · 28 Sep 2026, 10:05 AM

Process-mapping workshop board reviewed, notes consolidated with clear next steps.

### ***Stakeholder report — final review***

-27.4701, 153.0243 · 28 Sep 2026, 10:28 AM

Stakeholder report reviewed at the desk, confirmed ready for presentation.

## Voice & Text Observations

Observations below were recorded on-site as voice notes and automatically transcribed, or entered directly as text, through the Preserver app.

| Time     | Type  | Transcript / Note                                                                           |
|----------|-------|---------------------------------------------------------------------------------------------|
| 9:38 AM  | Voice | "Dashboard's looking good, metrics are trending the right way against target this quarter." |
| 10:05 AM | Voice | "Workshop board's consolidated, got clear next steps out of that session."                  |
| 10:28 AM | Text  | Stakeholder report reviewed and confirmed ready for presentation.                           |

## Site Visit Log

|          |                                                                |
|----------|----------------------------------------------------------------|
| 9:30 AM  | Activity started on-site — GPS lock confirmed, office location |
| 9:38 AM  | Performance dashboard check — photo + voice observation logged |
| 10:05 AM | Process mapping review — photo + voice observation logged      |
| 10:28 AM | Stakeholder report review — photo + text observation logged    |
| 10:40 AM | Activity ended and locked — record sealed, tamper-evident      |

## How This Report Was Produced

This report was generated from a single Preserver export — no re-typing, no separate note-taking app, and no manual GPS lookups. During the visit, every photo, voice note and text entry was captured in one place, each automatically stamped with the time and exact location it was recorded.

At the end of the visit, the activity was locked directly in the app, sealing the record so nothing could be altered after the fact. The full activity — photos, transcripts, GPS log and metadata — was then exported in one step (JSON + Photos) and handed to an AI assistant, which produced the structured report above in a matter of minutes.

The result: a defensible, timestamped, location-verified record of the review, turned into a stakeholder-ready report the same day it was captured.
