

Production Day Report

Client: Demo data - privacy protected · Documentary shoot day
Visit Date: 28 September 2026, 8:00 AM – 9:20 AM
Generated by: AI report assistant, from a Preserver field export

Summary

A documentary production day was carried out on-site, covering a camera and equipment check, an audio gear and recording check, and a footage review and edit handover. All observations were captured on-site using the Preserver app, with GPS location and timestamp data recorded automatically alongside supporting photos and voice notes converted to text.

Camera equipment was checked and confirmed ready before the shoot, audio gear was tested and confirmed recording clean, and the day's footage was reviewed and handed over to the edit ready for post-production.

Production Summary

Category	Observation	Status	Action Required
Camera Equipment	Confirmed ready before the shoot	Complete	None
Audio Recording	Tested, recording clean	Complete	None
Footage Handover	Reviewed, handed to post-production	Complete	Begin edit

Field Evidence

The following images and captions were captured directly through the Preserver app during the visit. Each entry retains its original GPS coordinates and capture timestamp. Demo data - privacy protected.

Camera — equipment check

-27.4703, 153.0236 · 28 Sep 2026, 8:07 AM

Camera equipment checked, confirmed ready before the shoot.

Audio gear — recording check

-27.4703, 153.0236 · 28 Sep 2026, 8:32 AM

Audio gear tested, confirmed recording clean before the interview.

Footage — review and handover

-27.4703, 153.0236 · 28 Sep 2026, 9:05 AM

Day's footage reviewed at the desk, handed over ready for post-production.

Voice & Text Observations

Observations below were recorded on-site as voice notes and automatically transcribed, or entered directly as text, through the Preserver app.

Time	Type	Transcript / Note
8:07 AM	Voice	"Camera's checked and ready, batteries and cards all good for the shoot."
8:32 AM	Voice	"Audio's testing clean, levels are good, ready to start the interview."
9:05 AM	Text	Day's footage reviewed and handed over ready for post-production.

Site Visit Log

8:00 AM	Activity started on-site — GPS lock confirmed, shoot location
8:07 AM	Camera equipment check — photo + voice observation logged
8:32 AM	Audio recording check — photo + voice observation logged
9:05 AM	Footage review and handover — photo + text observation logged
9:20 AM	Activity ended and locked — record sealed, tamper-evident

How This Report Was Produced

This report was generated from a single Preserver export — no re-typing, no separate note-taking app, and no manual GPS lookups. During the visit, every photo, voice note and text entry was captured in one place, each automatically stamped with the time and exact location it was recorded.

At the end of the visit, the activity was locked directly in the app, sealing the record so nothing could be altered after the fact. The full activity — photos, transcripts, GPS log and metadata — was then exported in one step (JSON + Photos) and handed to an AI assistant, which produced the structured report above in a matter of minutes.

The result: a defensible, timestamped, location-verified record of the shoot day, turned into an edit-ready handover the same day it was captured.

Preserver

Free to capture. Record your observations — photo, video, voice or text — with GPS and timestamp on every entry. Export anywhere, including straight to AI. preserver.me
