

Ancestry Research Report

Client: Demo data - privacy protected · Family history research session

Visit Date: 28 September 2026, 9:00 AM – 1:30 PM

Generated by: AI report assistant, from a Preserver field export

Summary

A family history research session was carried out, covering a records and archive check, a document and source review, and a findings and notes documentation check. All observations were captured using the Preserver app, with timestamp data recorded automatically alongside supporting photos and voice notes converted to text.

Records and archives were checked without issue, documents and sources were reviewed and cross-referenced, and findings were documented ready to be added to the family tree.

Research Summary

Category	Observation	Status	Action Required
Records & Archive	Checked without issue	Complete	None
Document & Source Review	Reviewed and cross-referenced	Complete	None
Findings & Notes	Documented, ready for the tree	Complete	None

Field Evidence

The following images and captions were captured directly through the Preserver app during the visit. Each entry retains its original GPS coordinates and capture timestamp. Demo data - privacy protected.

Records — archive check

-27.4700, 153.0226 · 28 Sep 2026, 9:12 AM

Records and archives checked without issue.

Documents — source review

-27.4700, 153.0226 · 28 Sep 2026, 11:05 AM

Documents and sources reviewed and cross-referenced.

Findings — notes documentation

-27.4700, 153.0226 · 28 Sep 2026, 1:15 PM

Findings documented and ready to be added to the family tree.

Voice & Text Observations

Observations below were recorded on-site as voice notes and automatically transcribed, or entered directly as text, through the Preserver app.

Time	Type	Transcript / Note
9:12 AM	Voice	"Records are checked, found a few good leads to follow up on."
11:05 AM	Voice	"Documents are cross-referenced, sources are lining up well."
1:15 PM	Text	Findings documented and ready to be added to the family tree.

Site Visit Log

9:00 AM	Activity started — GPS lock confirmed, research location
9:12 AM	Records and archive check — photo + voice observation logged
11:05 AM	Document and source review — photo + voice observation logged
1:15 PM	Findings and notes documentation — photo + text observation logged
1:30 PM	Activity ended and locked — record sealed, tamper-evident

How This Report Was Produced

This report was generated from a single Preserver export — no re-typing, no separate note-taking app, and no manual GPS lookups. During the visit, every photo, voice note and text entry was captured in one place, each automatically stamped with the time and exact location it was recorded.

At the end of the visit, the activity was locked directly in the app, sealing the record so nothing could be altered after the fact. The full activity — photos, transcripts, GPS log and metadata — was then exported in one step (JSON + Photos) and handed to an AI assistant, which produced the structured report above in a matter of minutes.

The result: a defensible, timestamped record of the research, turned into a family-tree-ready file the same afternoon it was captured.

Preserver

Free to capture. Record your observations — photo, video, voice or text — with GPS and timestamp on every entry. Export anywhere, including straight to AI. preserver.me
