

Preserver for Civil Engineers

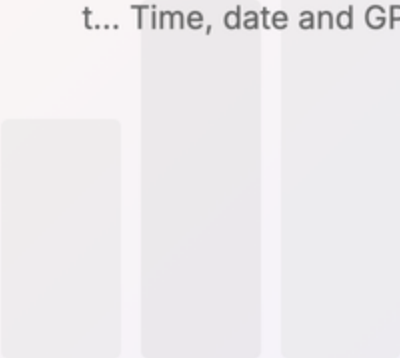

Site inspection logs, GPS-tagged observations and
progress records.

Why **Civil Engineers** Need Preserver

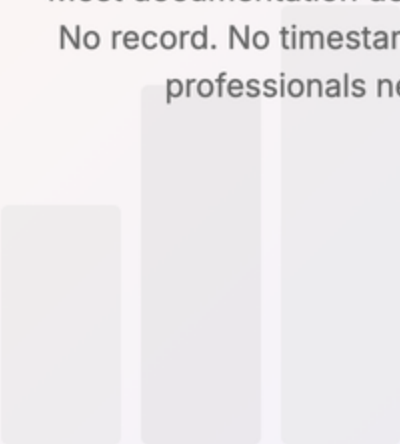

Civil engineering projects require detailed site inspection logs with verifiable location data. Preserver provides GPS-t... Time, date and GPS on every capture — no signal needed.

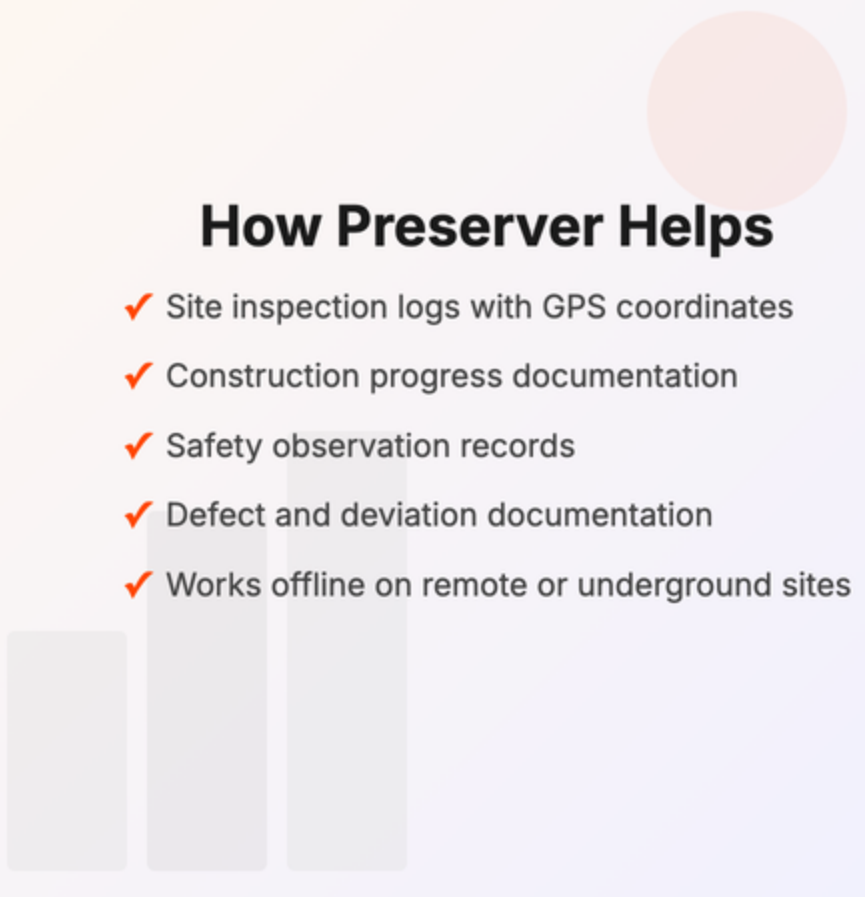

The Problem

Most documentation depends on connectivity. No signal?
No record. No timestamp? No credibility. Civil Engineers
professionals need proof — not promises.

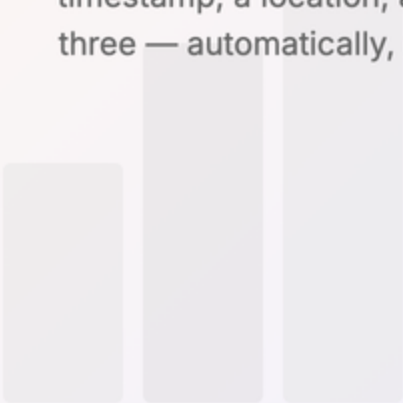

How Preserver Helps

- ✓ Site inspection logs with GPS coordinates
- ✓ Construction progress documentation
- ✓ Safety observation records
- ✓ Defect and deviation documentation
- ✓ Works offline on remote or underground sites

The Insight

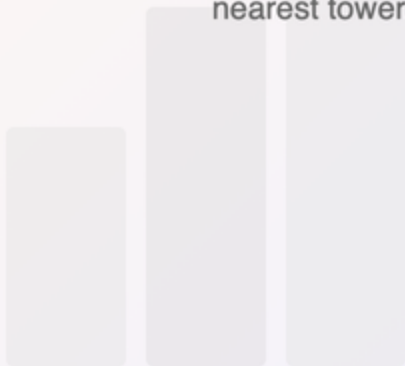

Every civil engineers professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

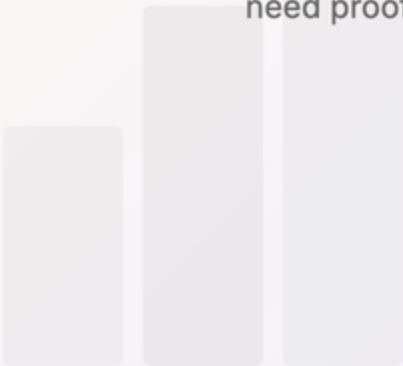

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all civil engineers professionals who need proof of when and where.

Get Preserver

For Civil Engineers
