

Preserver for Dietitians

Food diary support, meal photos with timestamps for client records.

Why Dietitians Need Preserver

Food diaries and meal documentation benefit from timestamped photos. When clients photograph meals in Preserver, the exa... Time, date and GPS on every capture — no signal needed.

The Problem

Most documentation depends on connectivity. No signal? No record. No timestamp? No credibility. Dietitians professionals need proof — not promises.

How Preserver Helps

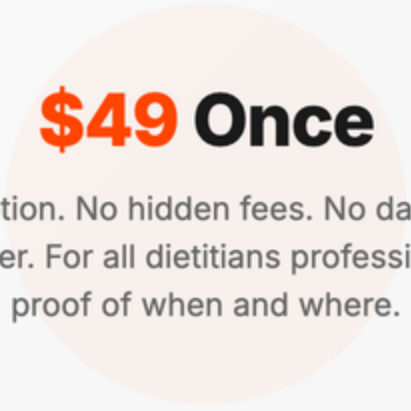

- ✓ Client meal photos with automatic timestamps
- ✓ Food diary support with GPS location
- ✓ Consultation notes and dietary assessments
- ✓ Progress photo documentation
- ✓ Works without internet connection

The Insight

Every dietitians professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all dietitians professionals who need proof of when and where.
