

Preserver for Electricians

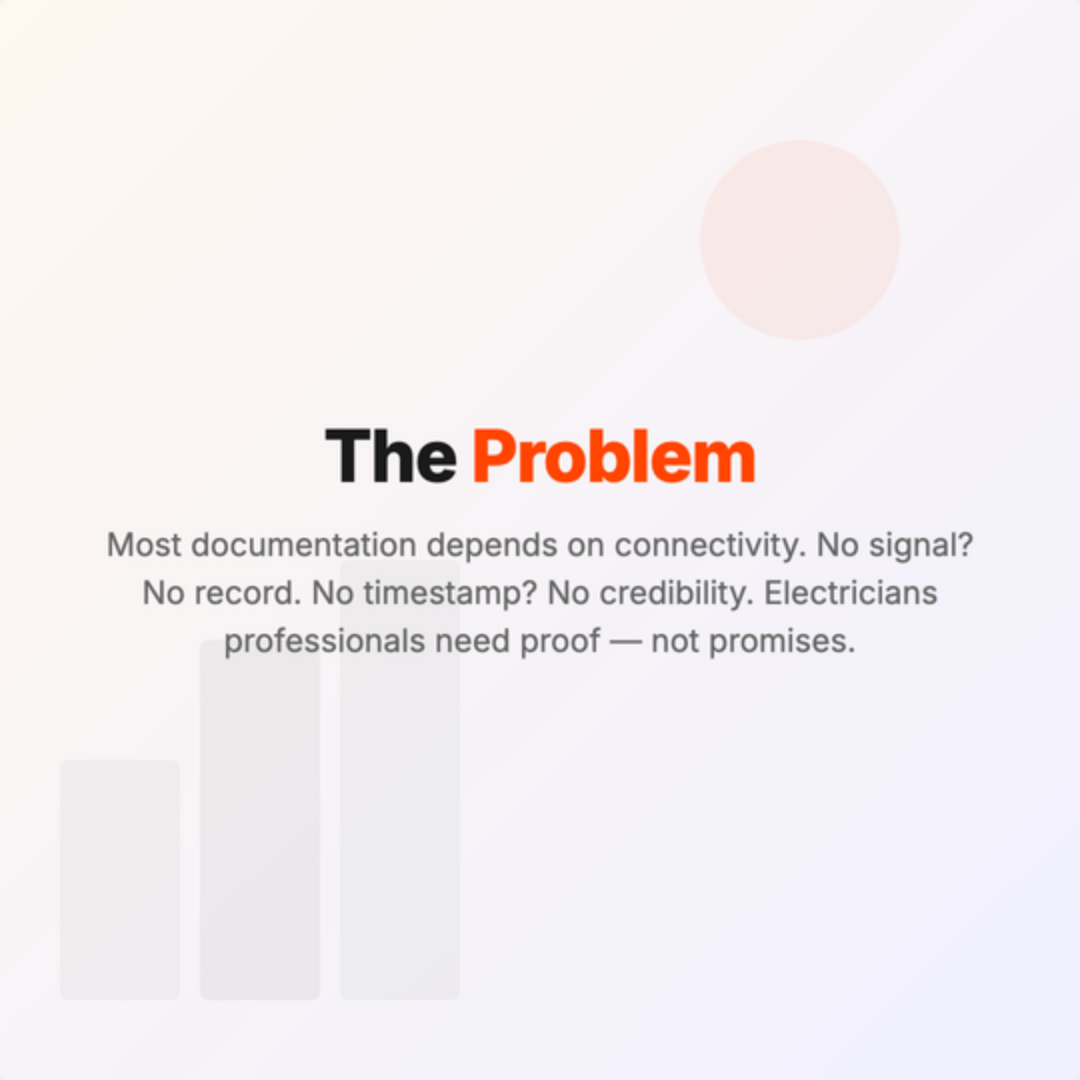

Compliance photos, circuit documentation and sign-off records.

Why **Electricians** Need Preserver

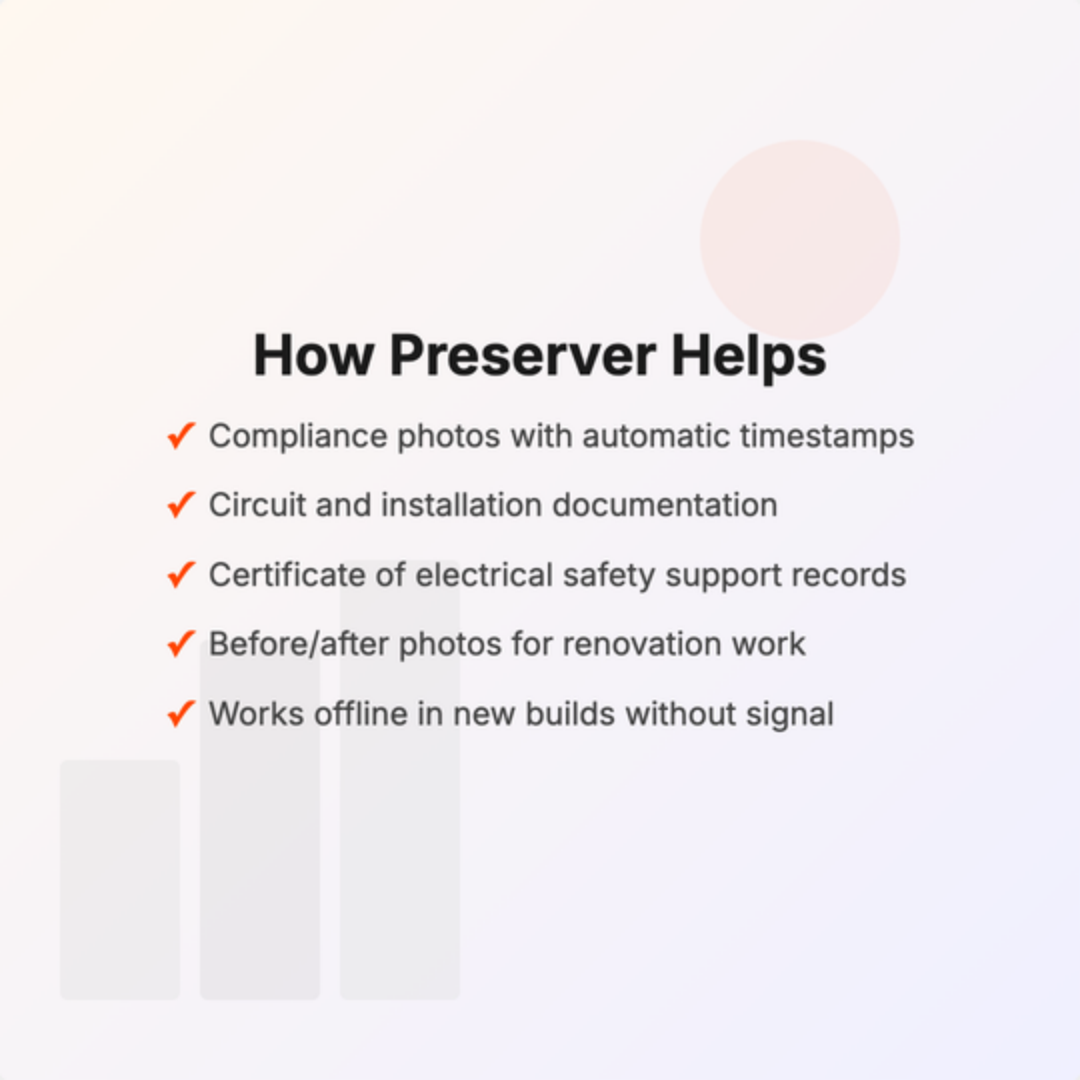

Electrical compliance documentation requires photographic proof of installations. Preserver provides timestamped compliance... Time, date and GPS on every capture — no signal needed.

The Problem

Most documentation depends on connectivity. No signal?
No record. No timestamp? No credibility. Electricians
professionals need proof — not promises.

How Preserver Helps

- ✓ Compliance photos with automatic timestamps
- ✓ Circuit and installation documentation
- ✓ Certificate of electrical safety support records
- ✓ Before/after photos for renovation work
- ✓ Works offline in new builds without signal

The Insight

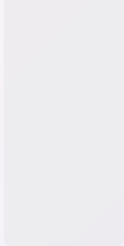

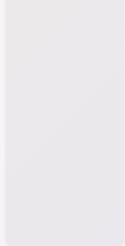

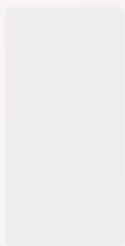

Every electricians professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

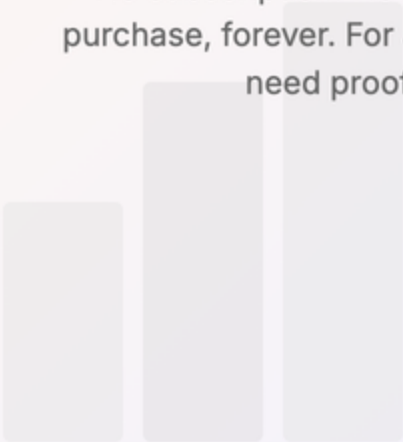

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all electricians professionals who need proof of when and where.

Get Preserver

For Electricians
