

Preserver for Emergency Services

Incident scene documentation and time-critical field notes.

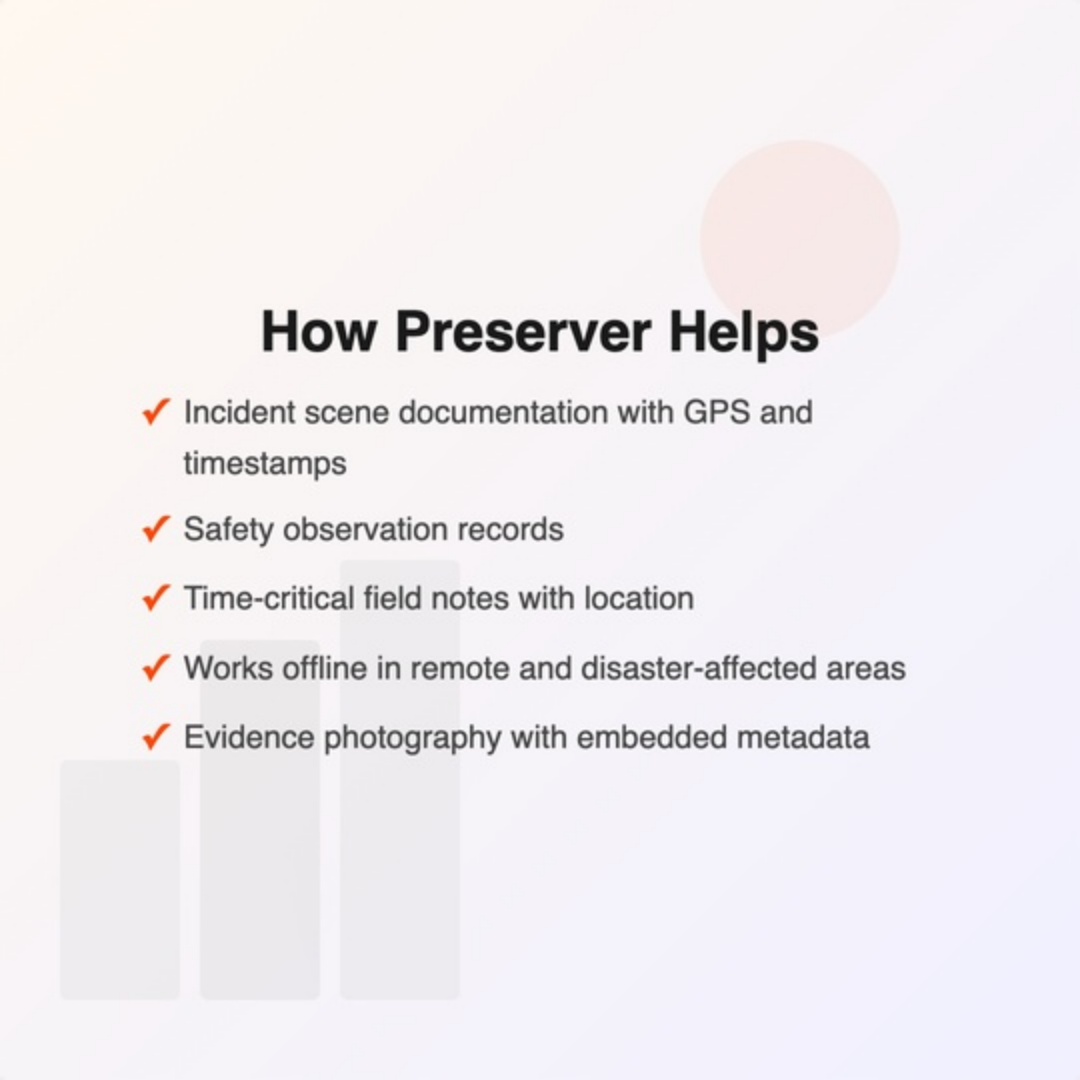

Why **Emergency Services** Need **Preserver**

Incident scene documentation requires accurate timestamps and GPS coordinates. Preserver provides rapid capture in the f... Time, date and GPS on every capture — no signal needed.

The Problem

Most documentation depends on connectivity. No signal? No record. No timestamp? No credibility. Emergency Services professionals need proof — not promises.

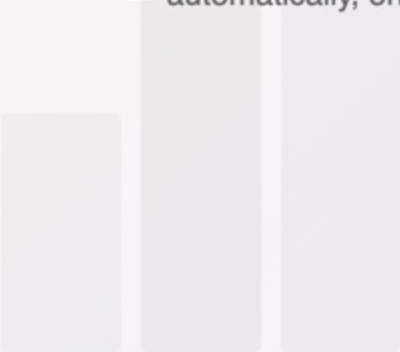

How Preserver Helps

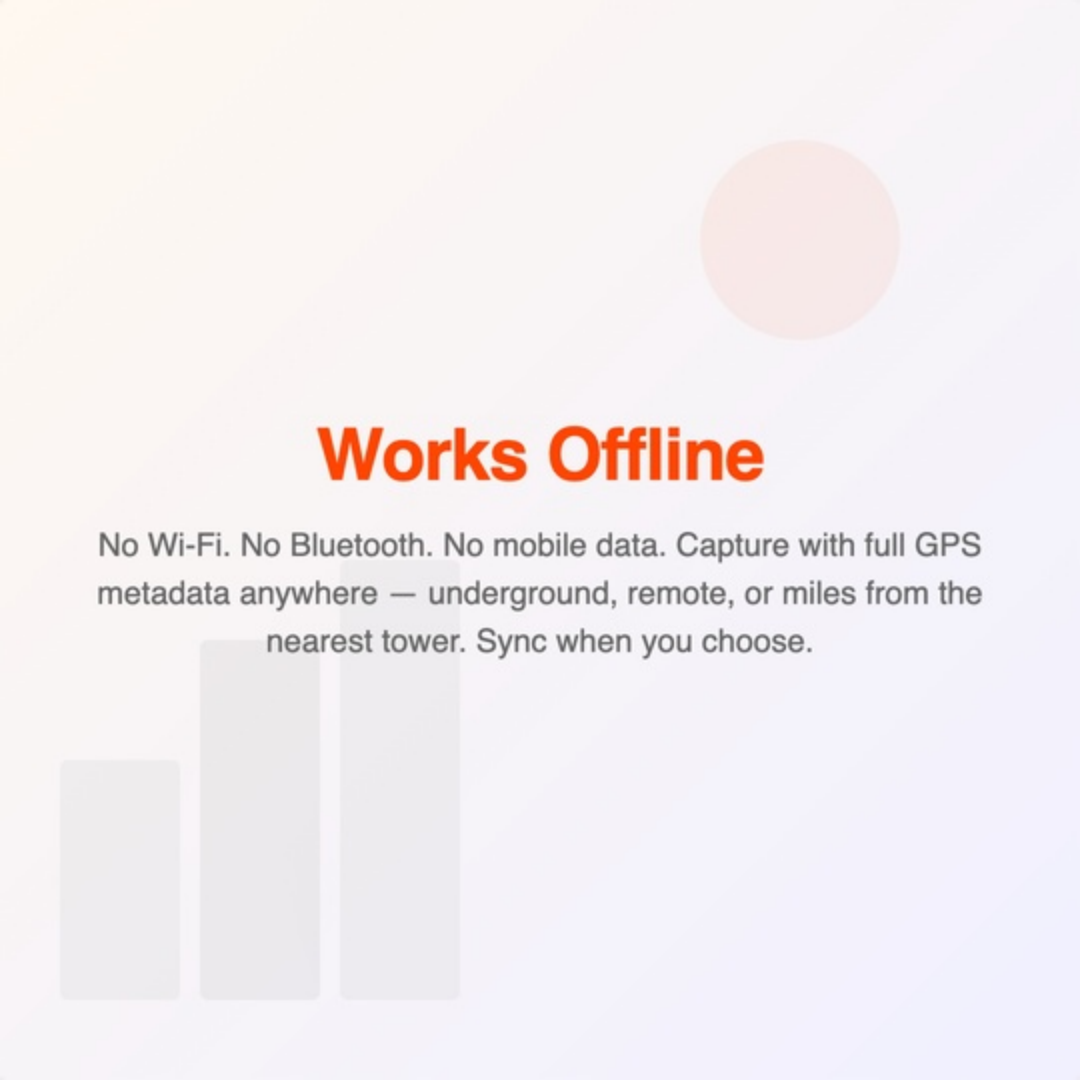

- ✓ Incident scene documentation with GPS and timestamps
- ✓ Safety observation records
- ✓ Time-critical field notes with location
- ✓ Works offline in remote and disaster-affected areas
- ✓ Evidence photography with embedded metadata

The Insight

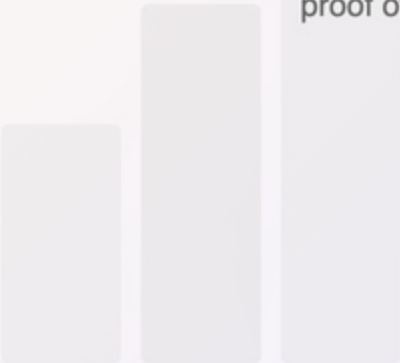

Every emergency services professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

The background features a large, semi-transparent orange circle in the upper right quadrant. In the lower left, there are three vertical grey bars of increasing height from left to right. The text is centered in the middle of the slide.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all emergency services professionals who need proof of when and where.
