

Preserver for Fishing

GPS-tagged catch records and conditions log — works
without mobile data.

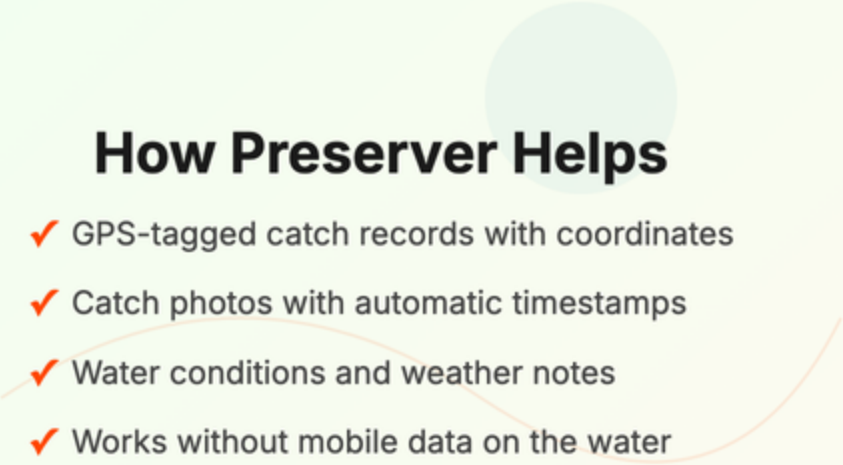

Why **Fishing** Need Preserver

GPS-tagged catch records with photos and conditions log
— proving exactly where and when that catch was made.
Works comp... Time, date and GPS on every capture — no
signal needed.

The Problem

Most documentation depends on connectivity. No signal?
No record. No timestamp? No credibility. Fishing
professionals need proof — not promises.

How Preserver Helps

- ✓ GPS-tagged catch records with coordinates
- ✓ Catch photos with automatic timestamps
- ✓ Water conditions and weather notes
- ✓ Works without mobile data on the water
- ✓ Fishing spot records that stay private

The Insight

Every fishing professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all fishing professionals who need proof of when and where.
