

Preserver for Fly-In Fly-Out

Remote site inspection logs with GPS verification — capture records in the field with zero connectivity.

Why **Fly-In Fly-Out** Need Preserver

Proof of when and where matters in every industry. Fly-In Fly-Out professionals need irrefutable records — automatic timestamps and GPS on every capture.

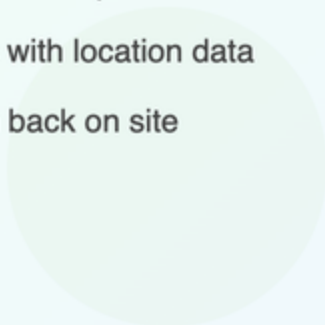

The Problem

Documentation depends on connectivity. No signal means no record. No timestamp means no credibility. For fly-in fly-out work in the field, proof is everything — and most tools can't deliver it.

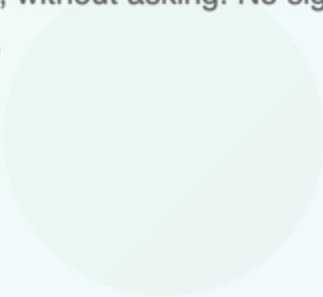

How Preserver Helps

- ✓ GPS-verified site arrival and departure records
 - ✓ Safety inspection documentation at remote locations
 - ✓ Shift handover notes with timestamps
 - ✓ Hazard and incident records with location data
 - ✓ Works offline — syncs when back on site
- 

The Insight

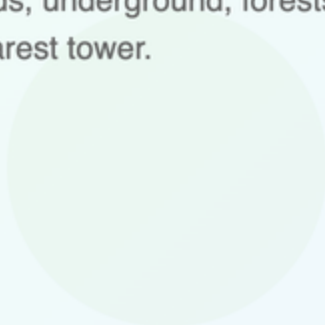

Every fly-in fly-out professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking. No signal needed.

Works Offline

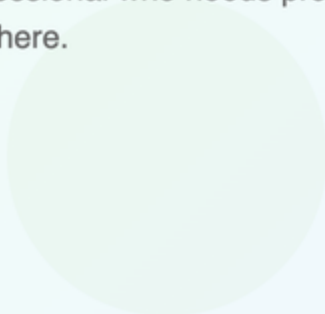

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — remote fields, underground, forests, or miles from the nearest tower.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For every fly-in fly-out professional who needs proof of when and where.
