

Preserver for Food Scientists

Tasting notes, recipe iterations and lab observations with
timestamps.

Why **Food Scientists** Need Preserver

Tasting notes and recipe iterations benefit from precise timestamps. Preserver provides voice notes, text records and ti... Time, date and GPS on every capture — no signal needed.

The Problem

Most documentation depends on connectivity. No signal?
No record. No timestamp? No credibility. Food Scientists
professionals need proof — not promises.

How Preserver Helps

- ✓ Tasting notes and sensory records with timestamps
- ✓ Recipe iteration documentation
- ✓ Lab observations with precise timestamps
- ✓ Works offline in production and lab environments
- ✓ Private — data stays on device

The Insight

Every food scientists professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all food scientists professionals who need proof of when and where.
