

Preserver for Home Healthcare

GPS-verified home visit logs and care delivery documentation.

Why **Home Healthcare** Need Preserver

Home healthcare workers need proof of visit and a record of what was done. GPS verification means every visit log proves...
Time, date and GPS on every capture — no signal needed.

The Problem

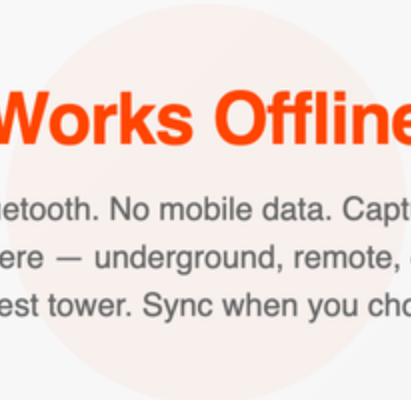

Most documentation depends on connectivity. No signal?
No record. No timestamp? No credibility. Home Healthcare
professionals need proof — not promises.

How Preserver Helps

- ✓ GPS-verified home visit logs
- ✓ Care delivery documentation
- ✓ Incident and safeguarding records
- ✓ Medication administration notes
- ✓ Works offline in areas with no signal

The Insight

Every home healthcare professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all home healthcare professionals who need proof of when and where.
