

Preserver for Oil & Gas

Pipeline inspection records, safety observation logs and GPS-tagged site documentation for remote energy operations.

Why Oil & Gas Need Preserver

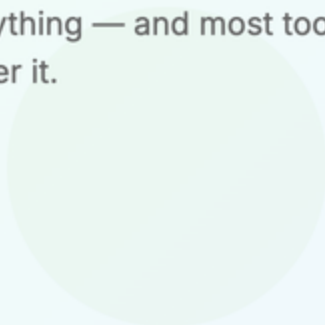

Proof of when and where matters in every industry. Oil & Gas professionals need irrefutable records — automatic timestamps and GPS on every capture.

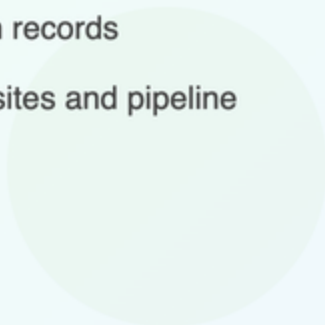

The Problem

Documentation depends on connectivity. No signal means no record. No timestamp means no credibility. For oil & gas work in the field, proof is everything — and most tools can't deliver it.

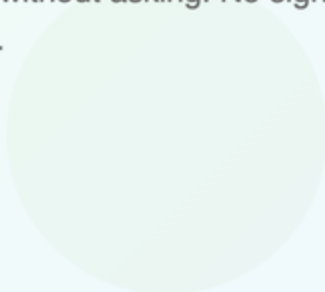

How Preserver Helps

- ✓ GPS-tagged pipeline inspection records
 - ✓ Safety observation logs with timestamps
 - ✓ Site condition and equipment documentation
 - ✓ Compliance-ready inspection records
 - ✓ Works offline in remote well sites and pipeline corridors
- 

The Insight

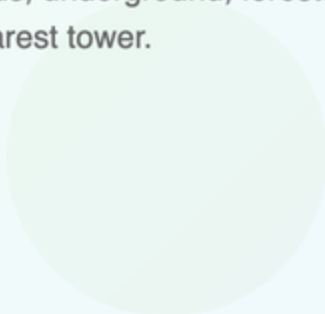

Every oil & gas professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking. No signal needed.

Works Offline

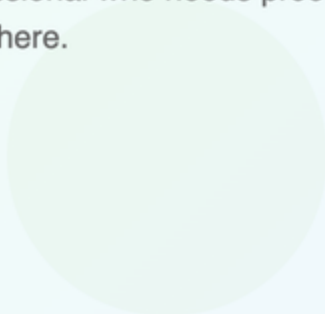

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — remote fields, underground, forests, or miles from the nearest tower.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For every oil & gas professional who needs proof of when and where.
