

Preserver for Pharmacists

Medication counselling notes and patient interaction logs.

Why **Pharmacists** Need Preserver

Pharmacist consultations and medication counselling sessions benefit from accurate records. Preserver provides private, ... Time, date and GPS on every capture — no signal needed.

The Problem

Most documentation depends on connectivity. No signal? No record. No timestamp? No credibility. Pharmacists professionals need proof — not promises.

How Preserver Helps

- ✓ Medication counselling notes
- ✓ Patient consultation records
- ✓ Interaction and adverse event documentation
- ✓ Private — data stays on device
- ✓ No account required

The Insight

Every pharmacist's professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all pharmacists professionals who need proof of when and where.
