

Preserver for Photographers

GPS-tagged shoot locations and behind-the-scenes
documentation.

Why Photographers Need Preserver

Professional photographers benefit from GPS-tagged shoot location records and client brief notes. Preserver provides beh... Time, date and GPS on every capture — no signal needed.

The Problem

Most documentation depends on connectivity. No signal? No record. No timestamp? No credibility. Photographers professionals need proof — not promises.

How Preserver Helps

- ✓ GPS-tagged shoot location records
 - ✓ Client brief notes with timestamps
 - ✓ Behind-the-scenes documentation
 - ✓ Location scouting records with coordinates
 - ✓ Supports copyright and licensing documentation
-

The Insight

Every photographers professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all photographers professionals who need proof of when and where.
