

Preserver for Plumbers

Before/after documentation for insurance and warranty —
timestamped and GPS-tagged.

Why Plumbers Need Preserver

Plumbing disputes about pre-existing damage or completed work are common. Timestamped before/after photos embedded with ... Time, date and GPS on every capture — no signal needed.

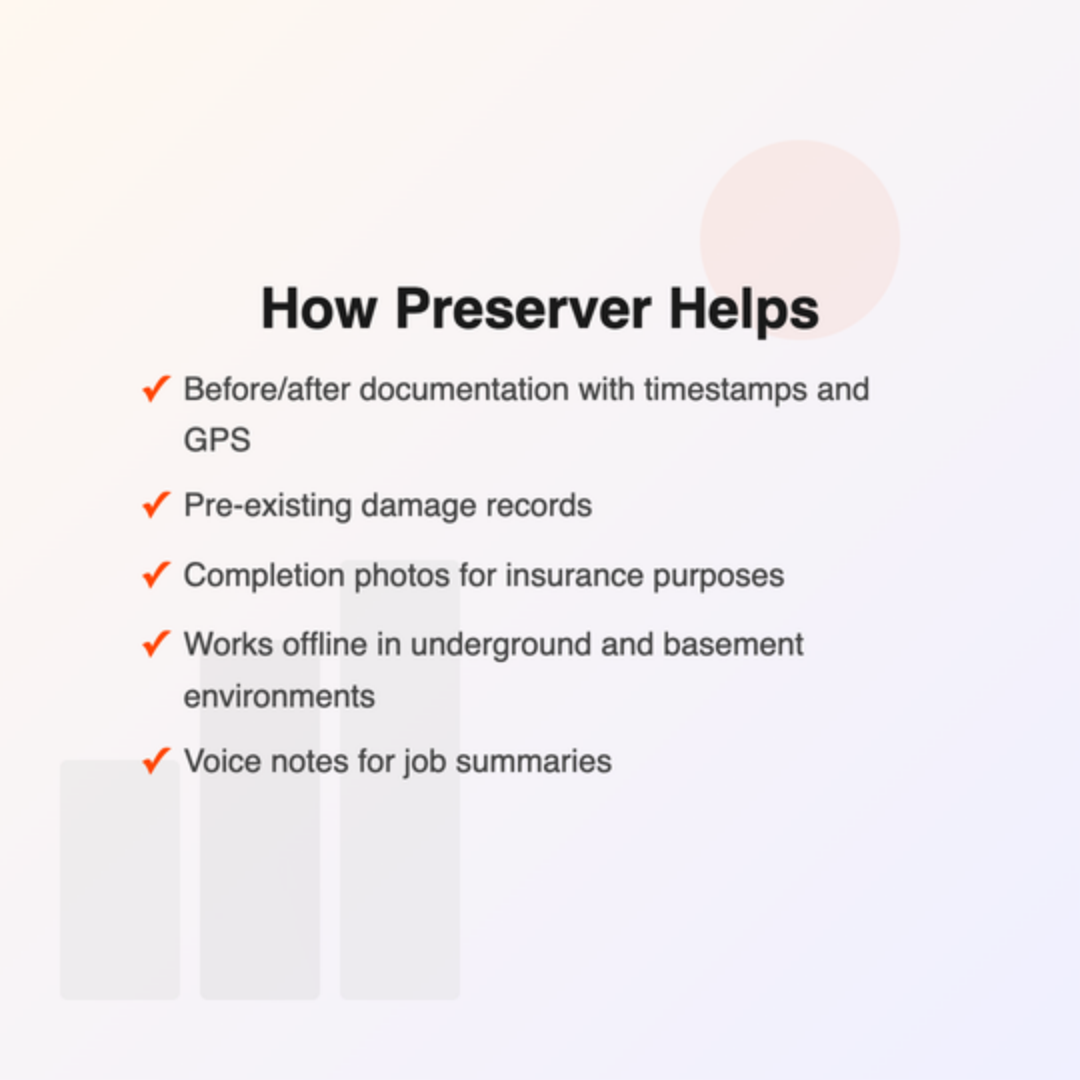

The Problem

Most documentation depends on connectivity. No signal? No record. No timestamp? No credibility. Plumbers professionals need proof — not promises.

How Preserver Helps

- ✓ Before/after documentation with timestamps and GPS
- ✓ Pre-existing damage records
- ✓ Completion photos for insurance purposes
- ✓ Works offline in underground and basement environments
- ✓ Voice notes for job summaries

The Insight

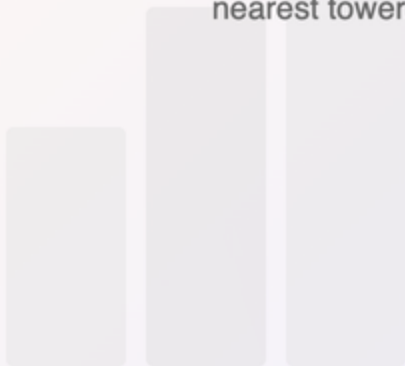

Every plumbers professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

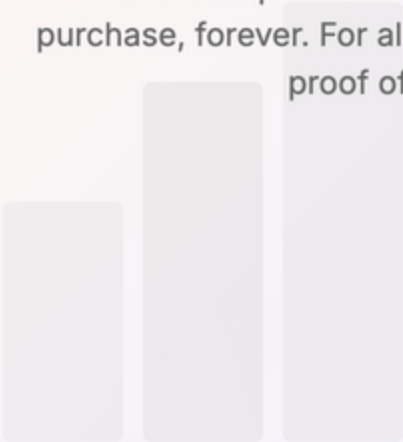

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all plumbers professionals who need proof of when and where.
