

Preserver for Youth Workers

Field interaction logs and incident documentation with location data.

Why Youth Workers Need Preserver

Youth workers operating in community settings need to document interactions carefully. GPS and timestamp metadata means ... Time, date and GPS on every capture — no signal needed.

The Problem

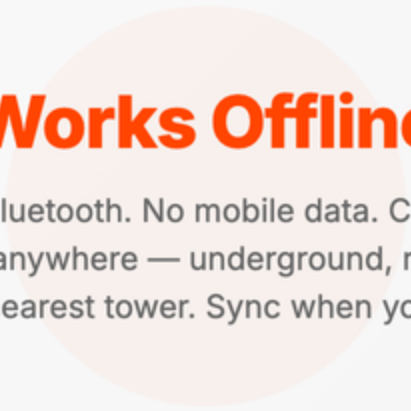

Most documentation depends on connectivity. No signal?
No record. No timestamp? No credibility. Youth Workers
professionals need proof — not promises.

How Preserver Helps

- ✓ Field interaction logs with GPS and timestamps
- ✓ Incident documentation with location evidence
- ✓ Outreach activity records
- ✓ Safeguarding observations
- ✓ Works offline in community settings

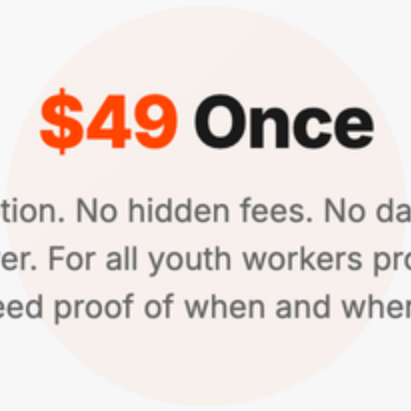

The Insight

Every youth workers professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

\$49 Once

No subscription. No hidden fees. No data sold. One purchase, forever. For all youth workers professionals who need proof of when and where.
