

Preserver for Accommodation

Room condition records with GPS and timestamp for every inspection.

Why Accommodation Need Preserver

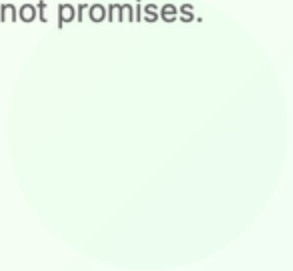

Room condition records taken before and after guests protect accommodation operators from damage disputes. GPS and times... Time, date and GPS on every capture — no signal needed.

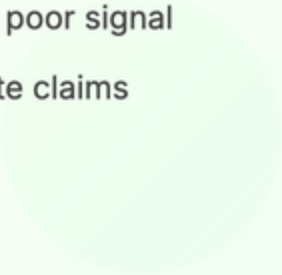

The Problem

Most documentation depends on connectivity. No signal?
No record. No timestamp? No credibility. Accommodation
professionals need proof — not promises.

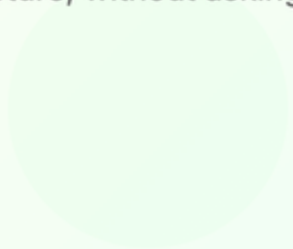

How Preserver Helps

- ✓ Room condition records before and after guests
 - ✓ GPS and timestamp verification for inspections
 - ✓ Maintenance request documentation
 - ✓ Works offline in buildings with poor signal

-
