

Preserver for Arborists

Tree work documentation with GPS-tagged job site records,
safety logs and before/after photos.

Why **Arborists** Need Preserver

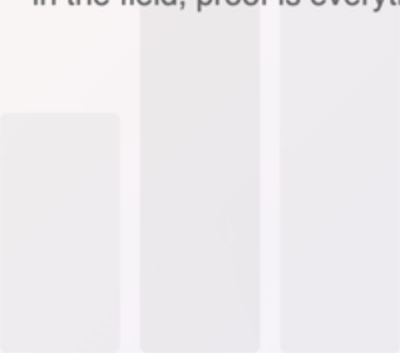

Proof of when and where matters in every industry. Arborists professionals need irrefutable records — automatic timestamps and GPS on every capture.

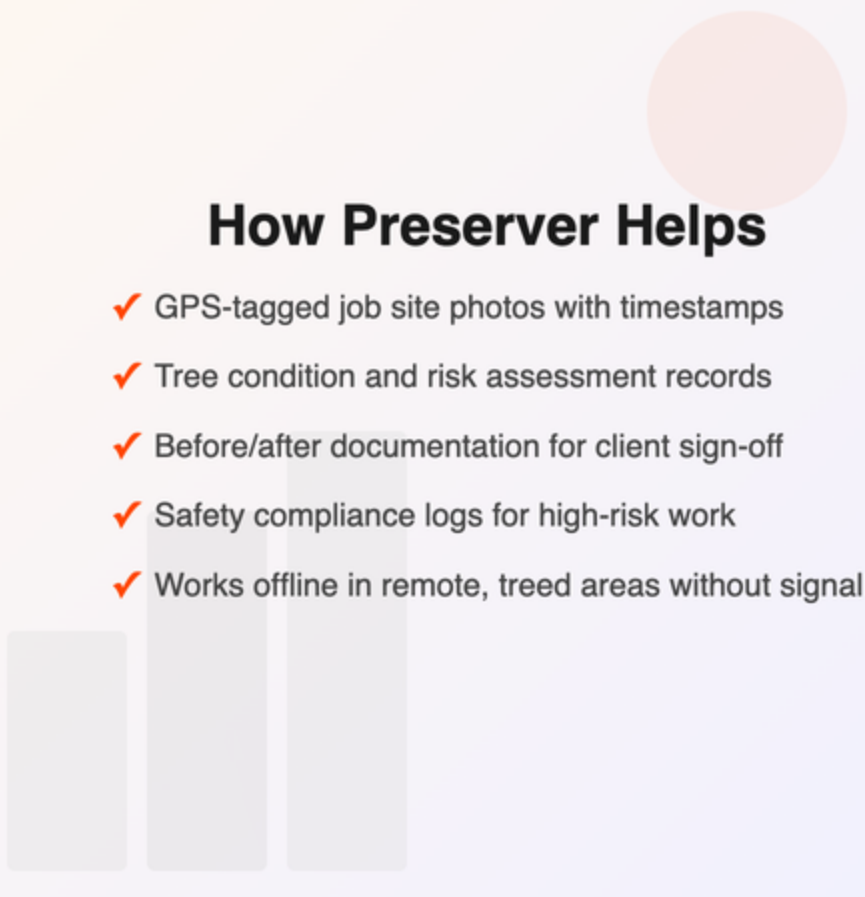

The Problem

Documentation depends on connectivity. No signal means no record. No timestamp means no credibility. For arborists work in the field, proof is everything — and most tools can't deliver it.

How Preserver Helps

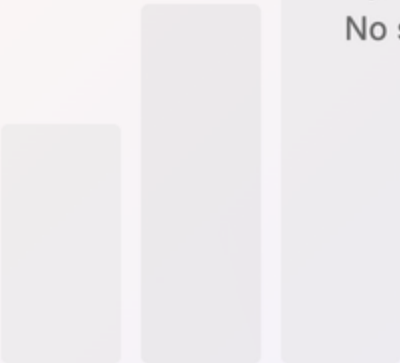

- ✓ GPS-tagged job site photos with timestamps
- ✓ Tree condition and risk assessment records
- ✓ Before/after documentation for client sign-off
- ✓ Safety compliance logs for high-risk work
- ✓ Works offline in remote, treed areas without signal

The Insight

Every arborists professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

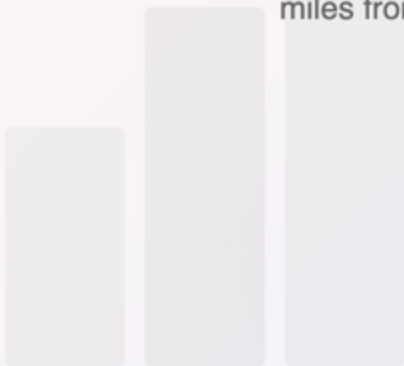

No signal needed.

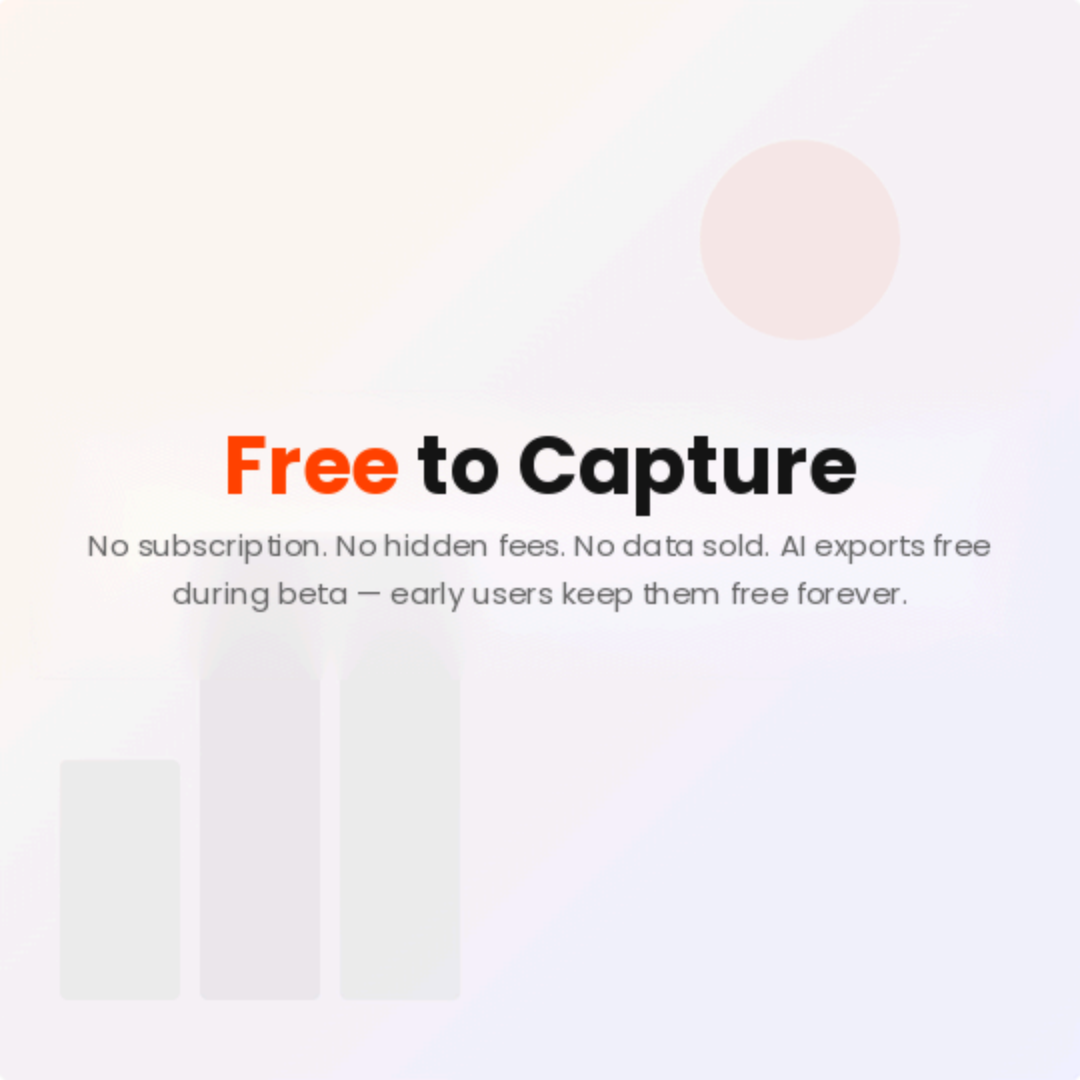

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — remote fields, underground, forests, or miles from the nearest tower.

Free to Capture

No subscription. No hidden fees. No data sold. AI exports free during beta — early users keep them free forever.
