

Preserver for Archaeologists

GPS-tagged find locations and artefact photography with
precise coordinates.

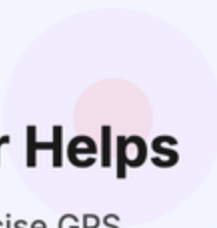

Why **Archaeologists** Need **Preserver**

Archaeological fieldwork requires precise GPS coordinates for every find location. Preserver records artefact photos wit... Time, date and GPS on every capture — no signal needed.

The Problem

Most documentation depends on connectivity. No signal?
No record. No timestamp? No credibility. Archaeologists
professionals need proof — not promises.

How Preserver Helps

- ✓ Find location records with precise GPS coordinates
 - ✓ Artefact photography with timestamps
 - ✓ Excavation notes and layer documentation
 - ✓ Works offline on remote dig sites
 - ✓ Supports provenance and chain of custody records
-

The Insight

Every archaeologists professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking.

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — underground, remote, or miles from the nearest tower. Sync when you choose.

Free to Capture

No subscription. No hidden fees. No data sold. AI exports free during beta — early users keep them free forever.
