

Preserver for Termite Inspectors

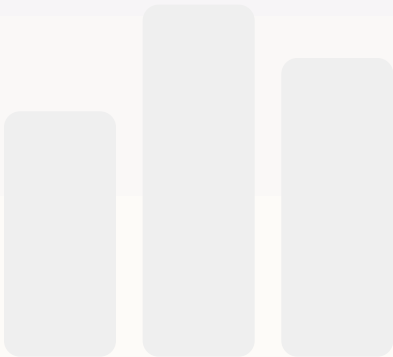

GPS-tagged activity and damage evidence - AI drafts the
timber pest report.

Why **Termite Inspectors** Need **Preserver**

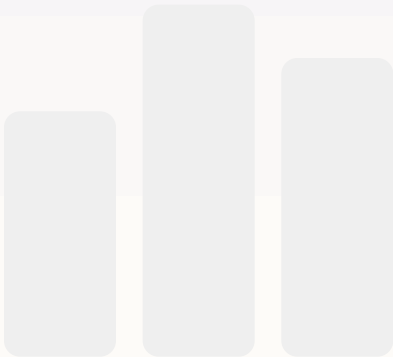

Termite damage claims hinge on what was found, where and when. Preserver captures GPS-tagged evidence of activity, damage and treatment zones - and the AI-ready export becomes a draft timber pest report.

The Problem

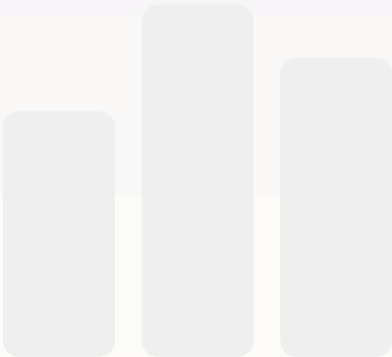

Termite claims turn on what you found, where and when.
Undocumented findings are indefensible - and the timber pest
report eats your evening.

The Solution

Every photo, video, voice note and text is automatically stamped with time, date and GPS at the moment of capture - offline, via satellite. Hash-verified. Nothing editable after the fact.

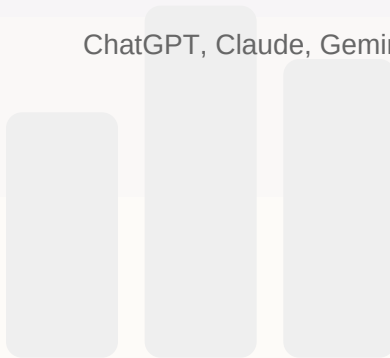

Field to Report

- 1. Capture as you work**
- 2. Auto-stamped - time, date, GPS**
- 3. Export the AI-ready bundle**
- 4. AI writes your timber pest report**

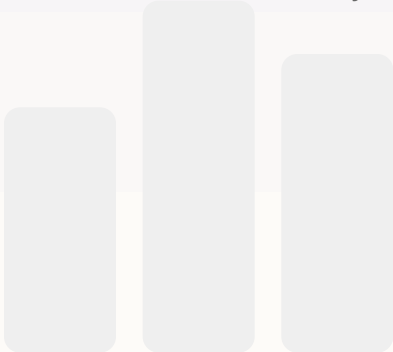

ChatGPT, Claude, Gemini or Grok - grounded in your verified data.

What You Capture

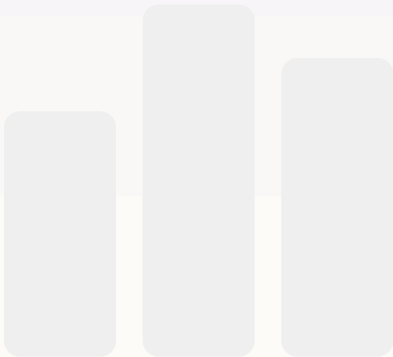

- GPS-tagged evidence of activity and damage
- Timestamped photos of nests, leads and treatment zones
- Voice notes under houses and in roof voids
- AI-ready export - timber pest report drafted for you
- Works offline anywhere on the property

AI Exports **Free** in Beta

Early users keep them free forever. Capture is free for everyone, always. We never train AI on your data - you choose which AI sees it.
