

Counselling Session Log

Client: Demo data - privacy protected · Community counselling office visit

Visit Date: 28 September 2026, 2:10 PM – 2:55 PM

Generated by: AI report assistant, from a Preserver field export

Summary

A scheduled counselling session was conducted at the community office, covering session check-in, room and environment setup, and end-of-session administrative follow-up. All observations were captured on-site using the Preserver app, with GPS location and timestamp data recorded automatically alongside supporting photos and voice notes converted to text.

The session proceeded on schedule with full attendance, the room was set up and quiet as required, and one follow-up administrative action was identified for the client file. Nothing raised was urgent, but the follow-up item has been flagged for the practice coordinator.

Visit Summary

Category	Observation	Status	Action Required
Attendance	Client checked in on time, full session attended	On Track	None
Session Environment	Private room booked and quiet, no interruptions logged	On Track	None
Follow-Up Admin	Next appointment card not yet issued to client	Attention	Issue reminder card next visit

Field Evidence

The following images and captions were captured directly through the Preserver app during the visit. Each entry retains its original GPS coordinates and capture timestamp. Demo data - privacy protected.

Counselling room — session space set up

-27.4698, 153.0251 · 28 Sep 2026, 2:11 PM

Private session room confirmed ready ahead of the appointment, logged against the visit start time.

Reception clipboard — attendance sign-in sheet

-27.4699, 153.0252 · 28 Sep 2026, 2:12 PM

Sign-in sheet showing on-time check-in, matched against the scheduled appointment slot.

Waiting area — end-of-session handover

-27.4697, 153.0250 · 28 Sep 2026, 2:53 PM

Waiting area at session close, used to confirm the client departed on schedule with reception.

Voice & Text Observations

Observations below were recorded on-site as voice notes and automatically transcribed, or entered directly as text, through the Preserver app.

Time	Type	Transcript / Note
2:11 PM	Voice	"Client's here right on time, room's booked and it's quiet, no one else booked either side of us."
2:30 PM	Voice	"Session's running to plan, nothing to flag mid-session, we'll pick up admin notes at the end."
2:53 PM	Text	Reminder card for the next appointment wasn't issued at check-out — flag for reception to send a follow-up.

Site Visit Log

2:10 PM	Activity started on-site — GPS lock confirmed, community counselling office
2:11 PM	Attendance — photo + text observation logged
2:12 PM	Session environment — photo + voice observation logged
2:53 PM	End-of-session handover — photo + text observation logged
2:55 PM	Activity ended and locked — record sealed, tamper-evident

How This Report Was Produced

This report was generated from a single Preserver export — no re-typing, no separate note-taking app, and no manual GPS lookups. During the visit, every photo, voice note and text entry was captured in one place, each automatically stamped with the time and exact location it was recorded.

At the end of the visit, the activity was locked directly in the app, sealing the record so nothing could be altered after the fact. The full activity — photos, transcripts, GPS log and metadata — was then exported in one step (JSON + Photos) and handed to an AI assistant, which produced the structured report above in a matter of minutes.

The result: a defensible, timestamped, location-verified record of the session, turned into a practice-ready administrative report the same day it was captured.

Preserver

Free to capture. Record your observations — photo, video, voice or text — with GPS and timestamp on every entry. Export anywhere, including straight to AI. preserver.me
