

Preserver for Painters

Job completion photos with timestamps, paint colour records
and client sign-off documentation.

Why **Painters** Need Preserver

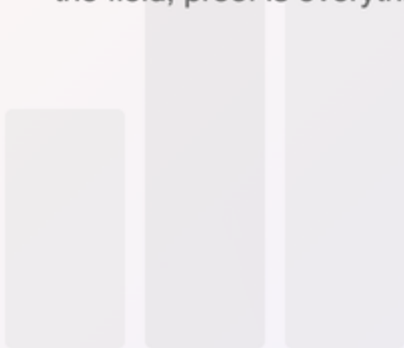

Proof of when and where matters in every industry. Painters professionals need irrefutable records — automatic timestamps and GPS on every capture.

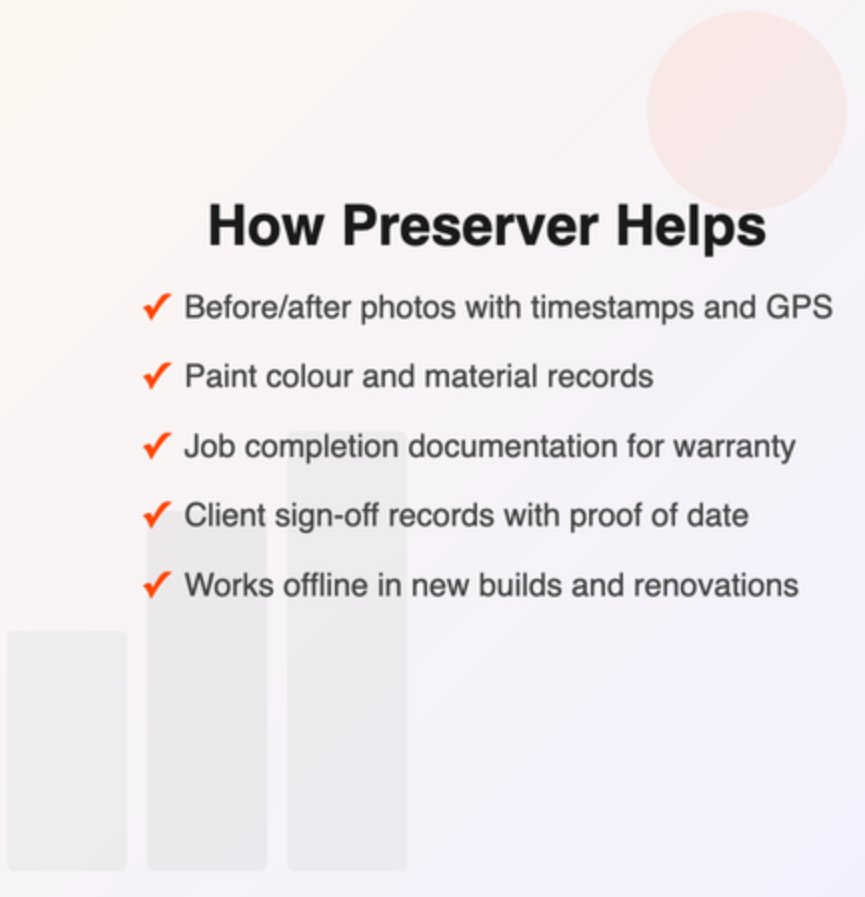

The Problem

Documentation depends on connectivity. No signal means no record. No timestamp means no credibility. For painters work in the field, proof is everything — and most tools can't deliver it.

How Preserver Helps

- ✓ Before/after photos with timestamps and GPS
- ✓ Paint colour and material records
- ✓ Job completion documentation for warranty
- ✓ Client sign-off records with proof of date
- ✓ Works offline in new builds and renovations

The Insight

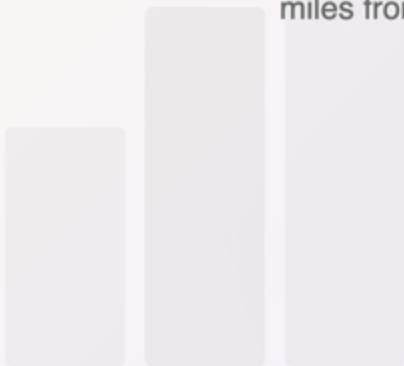

Every painters professional needs three things: a timestamp, a location, and privacy. Preserver delivers all three — automatically, on every capture, without asking. No signal needed.

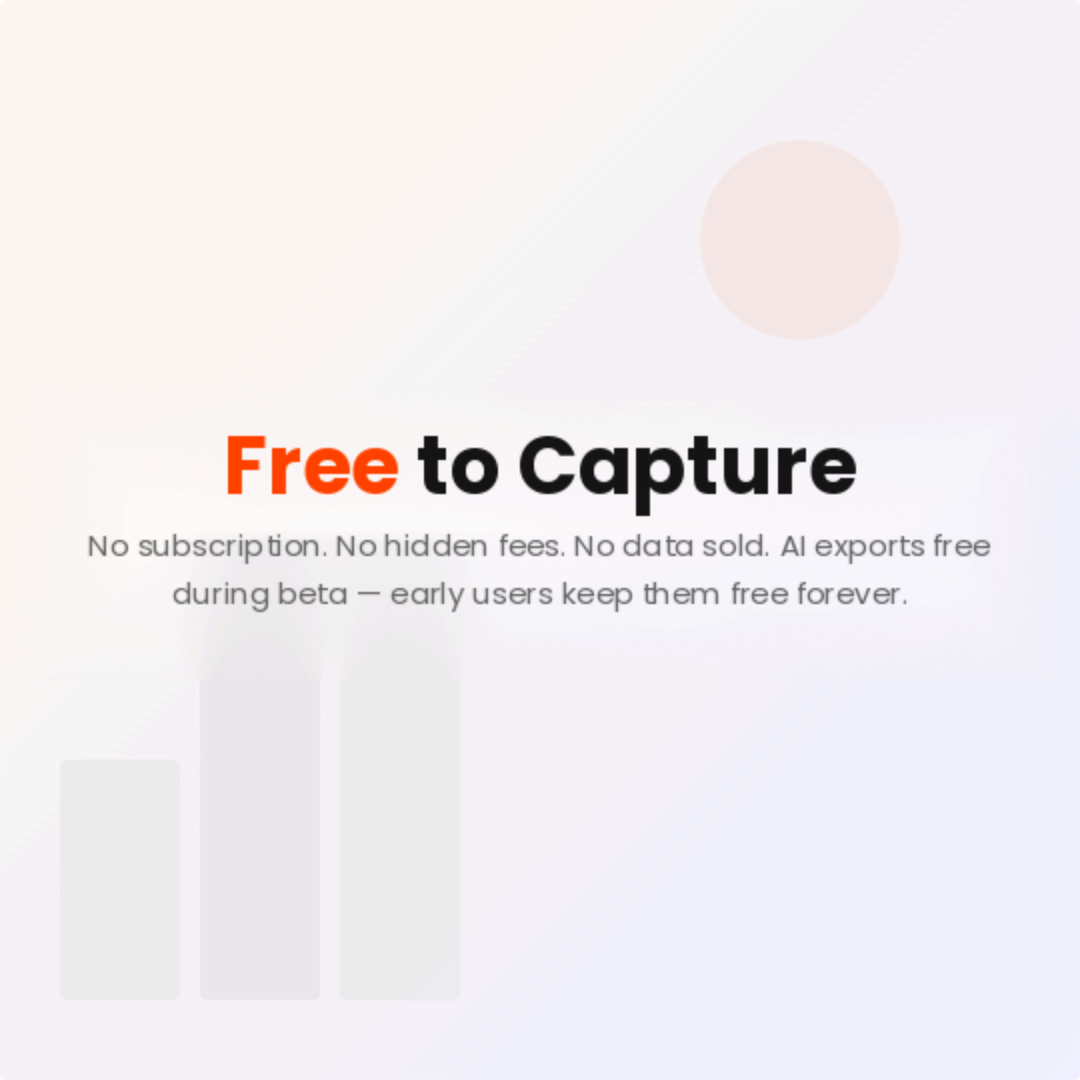

Works Offline

No Wi-Fi. No Bluetooth. No mobile data. Capture with full GPS metadata anywhere — remote fields, underground, forests, or miles from the nearest tower.

Free to Capture

No subscription. No hidden fees. No data sold. AI exports free during beta — early users keep them free forever.
