

Delivery Run Report

Client: Demo data - privacy protected · Delivery run completion
Visit Date: 28 September 2026, 7:30 AM – 8:45 AM
Generated by: AI report assistant, from a Preserver field export

Summary

A delivery run was carried out, covering a load check and manifest review, a vehicle and route check, and a final drop-off and proof-of-delivery review. All observations were captured using the Preserver app, with GPS location and timestamp data recorded automatically alongside supporting photos and voice notes converted to text.

The load was checked and confirmed against the manifest, the vehicle and route were checked and confirmed on schedule, and the final drop-off was completed with proof-of-delivery captured for every stop.

Delivery Summary

Category	Observation	Status	Action Required
Load Check	Confirmed against manifest	Complete	None
Vehicle & Route	Checked, confirmed on schedule	Complete	None
Proof of Delivery	Captured for every stop	Complete	None

Field Evidence

The following images and captions were captured directly through the Preserver app during the visit. Each entry retains its original GPS coordinates and capture timestamp. Demo data - privacy protected.

Parcel — load check

-27.4688, 153.0217 · 28 Sep 2026, 7:38 AM

Load checked and confirmed against the manifest before departure.

Vehicle — route check

-27.4688, 153.0217 · 28 Sep 2026, 7:55 AM

Vehicle and route checked, confirmed on schedule for the run.

Warehouse — final drop-off check

-27.4688, 153.0217 · 28 Sep 2026, 8:32 AM

Final drop-off completed, proof-of-delivery captured for every stop.

Voice & Text Observations

Observations below were recorded on-site as voice notes and automatically transcribed, or entered directly as text, through the Preserver app.

Time	Type	Transcript / Note
7:38 AM	Voice	"Load's checked against the manifest, all matching up and ready to go."
7:55 AM	Voice	"Vehicle's checked, route's loaded, on schedule for the morning run."
8:32 AM	Text	Final drop-off completed, proof-of-delivery captured for every stop.

Site Visit Log

7:30 AM	Activity started — GPS lock confirmed, depot location
7:38 AM	Load and manifest check — photo + voice observation logged
7:55 AM	Vehicle and route check — photo + voice observation logged
8:32 AM	Final drop-off review — photo + text observation logged
8:45 AM	Activity ended and locked — record sealed, tamper-evident

How This Report Was Produced

This report was generated from a single Preserver export — no re-typing, no separate note-taking app, and no manual GPS lookups. During the visit, every photo, voice note and text entry was captured in one place, each automatically stamped with the time and exact location it was recorded.

At the end of the visit, the activity was locked directly in the app, sealing the record so nothing could be altered after the fact. The full activity — photos, transcripts, GPS log and metadata — was then exported in one step (JSON + Photos) and handed to an AI assistant, which produced the structured report above in a matter of minutes.

The result: a defensible, timestamped, location-verified record of the run, turned into a proof-of-delivery file the same morning it was captured.

Preserver

Free to capture. Record your observations — photo, video, voice or text — with GPS and timestamp on every entry. Export anywhere, including straight to AI. preserver.me
