

Surveillance & Case Evidence Report

Client: Demo data - privacy protected · Case investigation file
Visit Date: 28 September 2026, 9:00 AM – 10:20 AM
Generated by: AI report assistant, from a Preserver field export

Summary

A case investigation was carried out covering a covert surveillance equipment check, a documentation and financial record review, and case file notes logged in the field. All observations were captured on-site using the Preserver app, with GPS location and timestamp data recorded automatically alongside supporting photos and voice notes converted to text.

Surveillance equipment was confirmed operational ahead of the observation window, financial and paper records were reviewed against the case brief with discrepancies flagged for follow-up, and field notes were logged directly into the case file with a timestamped, tamper-evident record.

Case Summary

Category	Observation	Status	Action Required
Surveillance Equipment	Confirmed operational ahead of observation window	Complete	None
Document Review	Financial records reviewed against case brief	Attention	Follow up on flagged discrepancy
Field Notes	Logged into case file, timestamped record	Complete	None

Field Evidence

The following images and captions were captured directly through the Preserver app during the visit. Each entry retains its original GPS coordinates and capture timestamp. Demo data - privacy protected.

Surveillance equipment — operational check

-27.4711, 153.0267 · 28 Sep 2026, 9:08 AM

Surveillance camera equipment checked and confirmed operational ahead of the scheduled observation window.

Document review — financial records

-27.4715, 153.0271 · 28 Sep 2026, 9:42 AM

Financial statements and supporting records reviewed against the case brief, one figure flagged for follow-up.

Case file — field notes logged

-27.4718, 153.0274 · 28 Sep 2026, 10:10 AM

Field notebook and case file updated with observations, timestamped and sealed as part of the record.

Voice & Text Observations

Observations below were recorded on-site as voice notes and automatically transcribed, or entered directly as text, through the Preserver app.

Time	Type	Transcript / Note
9:08 AM	Voice	"Equipment's all checked and running, ready to go for the observation window this afternoon."
9:42 AM	Voice	"Went through the financial records against the brief, there's one figure that doesn't line up, flagging that for follow-up."
10:10 AM	Text	Field notes logged into the case file, timestamped and sealed as part of the record.

Site Visit Log

9:00 AM	Activity started on-site — GPS lock confirmed, case location
9:08 AM	Surveillance equipment check — photo + voice observation logged
9:42 AM	Document review — photo + voice observation logged
10:10 AM	Case file notes — photo + text observation logged
10:20 AM	Activity ended and locked — record sealed, tamper-evident

How This Report Was Produced

This report was generated from a single Preserver export — no re-typing, no separate note-taking app, and no manual GPS lookups. During the visit, every photo, voice note and text entry was captured in one place, each automatically stamped with the time and exact location it was recorded.

At the end of the visit, the activity was locked directly in the app, sealing the record so nothing could be altered after the fact. The full activity — photos, transcripts, GPS log and metadata — was then exported in one step (JSON + Photos) and handed to an AI assistant, which produced the structured report above in a matter of minutes.

The result: a defensible, timestamped, location-verified record of the case work, turned into a client-ready report the same day it was captured.

Preserver

Free to capture. Record your observations — photo, video, voice or text — with GPS and timestamp on every entry. Export anywhere, including straight to AI. preserver.me
