

Pharmacy Dispensary Report

Client: Demo data - privacy protected · Community pharmacy compliance check

Visit Date: 28 September 2026, 10:15 AM – 10:34 AM

Generated by: AI report assistant, from a Preserver field export

Summary

A routine dispensary compliance check was carried out at a community pharmacy, covering shelf stock verification against the dispensing register, cold-chain storage monitoring for temperature-sensitive medicines, and a walk-through of the dispensary's standard operating checklist. All observations were captured on-site using the Preserver app, with GPS location and timestamp data recorded automatically alongside supporting photos and voice notes converted to text.

Overall, shelf stock matched the dispensing register with one exception, the medicine refrigerator was tracking within the required 2-8°C range, and the dispensary checklist was completed with no outstanding items. One stock discrepancy has been flagged for the pharmacist-in-charge to reconcile before the next audit.

Compliance Summary

Category	Observation	Status	Action Required
Shelf Stock	One pack of amoxicillin 500mg short against register	Attention	Reconcile with dispensing log
Cold-Chain Storage	Fridge holding steady at 4.2°C	Compliant	No action
Dispensary Checklist	End-of-shift checklist completed, no items outstanding	Compliant	No action

Field Evidence

The following images and captions were captured directly through the Preserver app during the visit. Each entry retains its original GPS coordinates and capture timestamp. Demo data - privacy protected.

Shelf stock check — prescription medication shelving

-27.4691, 153.0235 · 28 Sep 2026, 10:18 AM

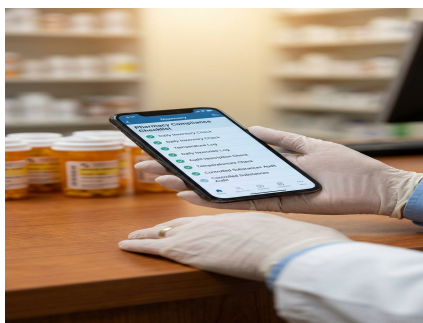

Shelf count of scheduled medicines cross-checked against the dispensing register, flagging one short pack of amoxicillin 500mg.

Cold-chain check — medicine refrigerator data logger

-27.4692, 153.0236 · 28 Sep 2026, 10:24 AM

Digital data logger on the medicine fridge confirming a steady 4.2°C reading, within the required 2-8°C range.

Dispensary checklist — end-of-shift sign-off

-27.4691, 153.0234 · 28 Sep 2026, 10:31 AM

On-device SOP checklist for the dispensary shift, completed and signed off with no outstanding items.

Voice & Text Observations

Observations below were recorded on-site as voice notes and automatically transcribed, or entered directly as text, through the Preserver app.

Time	Type	Transcript / Note
10:18 AM	Voice	"Shelf count for the scheduled medicines cabinet — looks like we're one pack of amoxicillin five-hundred short against the register. Flagging that for reconciliation."
10:24 AM	Voice	"Fridge logger's reading four point two degrees, right in range. No cold-chain issues to report today."
10:31 AM	Text	End-of-shift dispensary checklist completed — no outstanding items, all bins and benches clear.

Site Visit Log

10:15 AM	Activity started on-site — GPS lock confirmed, community pharmacy
10:18 AM	Shelf stock check — photo + voice observation logged
10:24 AM	Cold-chain check — photo + voice observation logged
10:31 AM	Dispensary checklist — photo + text observation logged
10:34 AM	Activity ended and locked — record sealed, tamper-evident

How This Report Was Produced

This report was generated from a single Preserver export — no re-typing, no separate note-taking app, and no manual GPS lookups. During the visit, every photo, voice note and text entry was captured in one place, each automatically stamped with the time and exact location it was recorded.

At the end of the visit, the activity was locked directly in the app, sealing the record so nothing could be altered after the fact. The full activity — photos, transcripts, GPS log and metadata — was then exported in one step (JSON + Photos) and handed to an AI assistant, which produced the structured report above in a matter of minutes.

The result: a defensible, timestamped, location-verified record of the compliance check, turned into an audit-ready report the same day it was captured.
