

Risk Modelling Review Report

Client: Demo data - privacy protected · Quarterly risk model review

Visit Date: 28 September 2026, 9:00 AM – 10:15 AM

Generated by: AI report assistant, from a Preserver field export

Summary

A quarterly risk modelling review was carried out on-site, covering a market data and trend check, a premium and reserve calculation review, and a final report sign-off. All observations were captured on-site using the Preserver app, with GPS location and timestamp data recorded automatically alongside supporting photos and voice notes converted to text.

Market data and trend indicators were reviewed and confirmed consistent with the model assumptions, premium and reserve calculations were checked against source figures with no discrepancies found, and the final report was reviewed and signed off as ready for distribution.

Review Summary

Category	Observation	Status	Action Required
Market Data Check	Consistent with model assumptions	Complete	None
Reserve Calculations	Checked against source figures, no discrepancies	Complete	None
Final Report	Reviewed, signed off for distribution	Complete	None

Field Evidence

The following images and captions were captured directly through the Preserver app during the visit. Each entry retains its original GPS coordinates and capture timestamp. Demo data - privacy protected.

Market data — trend check

-27.4698, 153.0251 · 28 Sep 2026, 9:08 AM

Market data and trend indicators reviewed, confirmed consistent with model assumptions.

Reserve calculations — figures review

-27.4698, 153.0251 · 28 Sep 2026, 9:35 AM

Premium and reserve calculations checked against source figures, no discrepancies found.

Final report — sign-off

-27.4698, 153.0251 · 28 Sep 2026, 10:02 AM

Final report reviewed and signed off as ready for distribution.

Voice & Text Observations

Observations below were recorded on-site as voice notes and automatically transcribed, or entered directly as text, through the Preserver app.

Time	Type	Transcript / Note
9:08 AM	Voice	"Market data's tracking with our assumptions, nothing unexpected in the trend this quarter."
9:35 AM	Voice	"Reserve calculations check out against the source figures, no discrepancies to flag."
10:02 AM	Text	Final report reviewed and signed off as ready for distribution.

Site Visit Log

9:00 AM	Activity started on-site — GPS lock confirmed, office location
9:08 AM	Market data check — photo + voice observation logged
9:35 AM	Reserve calculation review — photo + voice observation logged
10:02 AM	Final report sign-off — photo + text observation logged
10:15 AM	Activity ended and locked — record sealed, tamper-evident

How This Report Was Produced

This report was generated from a single Preserver export — no re-typing, no separate note-taking app, and no manual GPS lookups. During the visit, every photo, voice note and text entry was captured in one place, each automatically stamped with the time and exact location it was recorded.

At the end of the visit, the activity was locked directly in the app, sealing the record so nothing could be altered after the fact. The full activity — photos, transcripts, GPS log and metadata — was then exported in one step (JSON + Photos) and handed to an AI assistant, which produced the structured report above in a matter of minutes.

The result: a defensible, timestamped, location-verified record of the review, turned into a client-ready report the same day it was captured.

Preserver

Free to capture. Record your observations — photo, video, voice or text — with GPS and timestamp on every entry. Export anywhere, including straight to AI. preserver.me
